

ProfiMaster

Robust filter unit with high capacity filter

Reliable industrial quality
Robust filter unit with high capacity filter.

2 -Stage filter
Long filter life due to pre-filter and 17m² mainfilter.

360° Radius
Maximum flexibility of exhaust arm for use without any restrictions.

Comfortable operation
Comfortable adjustment of self-supporting exhaust arm into every desired position with only one hand.

40% better capture rate
Less re-positioning work of exhaust arm due to larger capture area of the flanged hood.

Start-Stop automatic (optional)
The link to the welding machine is saving time and energy.
